PROFESSIONAL EXPERIENCE

Web Development Intern (FamilySearch)

May 2024 - Present

- Manage internal UI framework consumed by 10+ engineering teams using React Typescript
- Optimize custom Prerender service middleware (Express) to handle 10,000,000+ requests per month
- Enhance DevOps experience using Github Actions, NPM, Heroku, and more for 50+ developers
- Plan, counsel, and fulfill Agile Methodologies using Jira and knowledge of Software Development Lifecycle
- Design and edit new features on internal APIs through AWS API Gateway and Lambda
- Implement custom GraphQL server connecting React pages to our internal CMS platform

Web Developer (BYU School of Music)

November 2023 - May 2024

- Manage internal video and audio streaming systems with Javascript used by 1000+ patrons
- Design and implement over 100 web pages using Brightspot CMS and HTML/CSS/JS
- Counsel with administration and faculty on marketing efforts, outreach, and more

Teaching Assistant (BYU School of Music)

June 2022 - December 2023

- Assisted in class administration and teaching for Music Theory, Orchestration, Composition, History, and more
- Graded 1000+ essays, homework assignments, and exams
- Offer feedback to and tutor 100s of students for assignments and exam preparation

UNIVERSITY ORGANIZATIONS

BYU Developer's Club - VP of Outreach

September 2023 - Present

Music Student Advisory Council (Area Representative, Recital Coordinator)

August 2023 - May 2024

Performing Ensembles and Studios (Band, Orchestra, and more)

August 2019 - Present

PERSONAL PROJECTS - <https://github.com/Simon-Cheek>

Portfolio Website - Designed in Figma, built using React, deployed automatically using Github/Vercel

Car Web Scraper - Python script that scrapes KSL for car deals, performs linear regression analysis on mileage/price

Gollab - MERN (Full) Stack WebApp with authentication that allows users to set and track goals
