WORK EXPERIENCE

Software Engineer II

April 2025 - Present

FamilySearch

Lehi, UT

- Architected async orchestration layer integrating Pigment (3rd-party EPM) with internal services (Millions of records)
- Maintain 40+ Spring Boot microservices; enforce 80%+ test coverage and best practices across hundreds of PR reviews
- Optimized image workflow engine handling millions of concurrent requests (Redis, SQS, mutexes)
- Tuned Cassandra clusters sustaining 7M+ requests/hour under production load
- Implemented event-driven transfer system bridging isolated environments for org-wide integration testing

Web Development Intern

May 2024 - April 2025

FamilySearch

Lehi, UT

- Developed internal React TypeScript framework used by 10+ engineering teams
- Implemented WCAG standards with semantic HTML, ARIA roles, and keyboard navigation
- Optimized Node / Express bot redirection system, handling 10M+ requests/month
- Enhanced AWS-powered dashboards to track GitHub repository statuses (API Gateway, Lambda)
- Architected and developed user bandwidth inference algorithm to customize user experience

Student Web Developer

Nov 2023 - May 2024

BYU School of Music

Provo, UT

- Managed internal video & audio streaming system for 1,000+ users using JQuery / Javascript
- Optimized concert data collection & file storage (500+ events) using 3rd party Node middleware
- Debugged & enhanced website UI using HTML, CSS, JavaScript, and Chrome DevTools

EDUCATION

Georgia Institute of Technology

Atlanta, Georgia

MS Computer Science | Computing Systems

2028 (Expected)

Research Area | Networks, Distributed Systems

Brigham Young University

Provo, Utah

BM Music Composition | CS Minor

April 2025

Vice President: BYU Developer's Club

Magna Cum Laude

TECHNICAL SKILLS

Languages: Typescript, Javascript, Java, Python, Go, C, C++

Frontend: React, Next.js, TanStack, HTML/CSS

Backend: Spring Boot, Node.js, Express.js

Database: Cassandra, Redis, PostgreSQL, MongoDB, DynamoDB

Infra: AWS (EC2, S3, Lambda, API Gateway), Docker, GitHub Actions

RESEARCH & PROJECTS - <https://github.com/Simon-Cheek>

Global Internet Traceroute Measurement Infra | *Python, C++, Docker, Clickhouse*

Ongoing

TrendWatchers.co | *AI-powered Social Media Management Platform, React, PHP, Laravel*

Ongoing

National-Scale Network Shutdown Analysis | *First Author Publication in PETS FOCI (Issue 2, 2026)*

Apr 2026

Distributed File System | *gRPC, C++, Concurrency*

Dec 2025
